Living Beyond A Number

Jeff Henderson is one of America's most sought out motivational speakers. His real-life testimony of criminal behavior, imprisonment, struggle, determination and success is like no other. As a former drug dealer, he made \$35,000 per week dealing cocaine. During a decade of incarceration in federal prison, he found a passion for cooking in prison kitchens. Once released and given a **second chance**, he transformed his life and focused on a career as a chef. Starting as a dishwasher just as he did in prison, **Chef Jeff** worked his way up the career ladder in various high end restaurants also hotels to become an executive chef and the Chef of the Year. **Chef Jeff** tells his roller coaster story with intensity, humor, and a soulful determination to help others benefit from meeting and hearing him. His straight from the heart presentations will motivate, inspire and educate all in his audience. Come hear his successful Recipe for Life After Prison.

ALSO FEATURING

REAL STORIES BY REAL PEOPLE: A panel discussion by ex-offenders who share their experiences, their hurdles and their triumphs.

REENTRY RESOURCES: JOBS, Family Strengthening, Training, Supervision, Healthcare, Education, Mentoring, Housing, and more.

TAKE ADVANTAGE OF QUESTION & ANSWER SESSION: Have questions about life after prison? Bring them and let your voice be heard!
