

Second Chance Act Family-Based Program Performance Measurement Data

Second Chances and Safer Communities Conference
Thursday, May 24, 2012

BJA

Bureau of Justice Assistance
U.S. Department of Justice

U.S. DEPARTMENT OF JUSTICE
BUREAU OF JUSTICE ASSISTANCE

BJA

This session is designed to:

- Discuss the value of good performance data
- Explain how BJA uses performance data
- Elicit feedback from grantees
- Review performance measurement results
- Discuss common errors made
- Offer suggestions on data collection
- Discuss revisions to measures

Why Are Performance Measures Important?

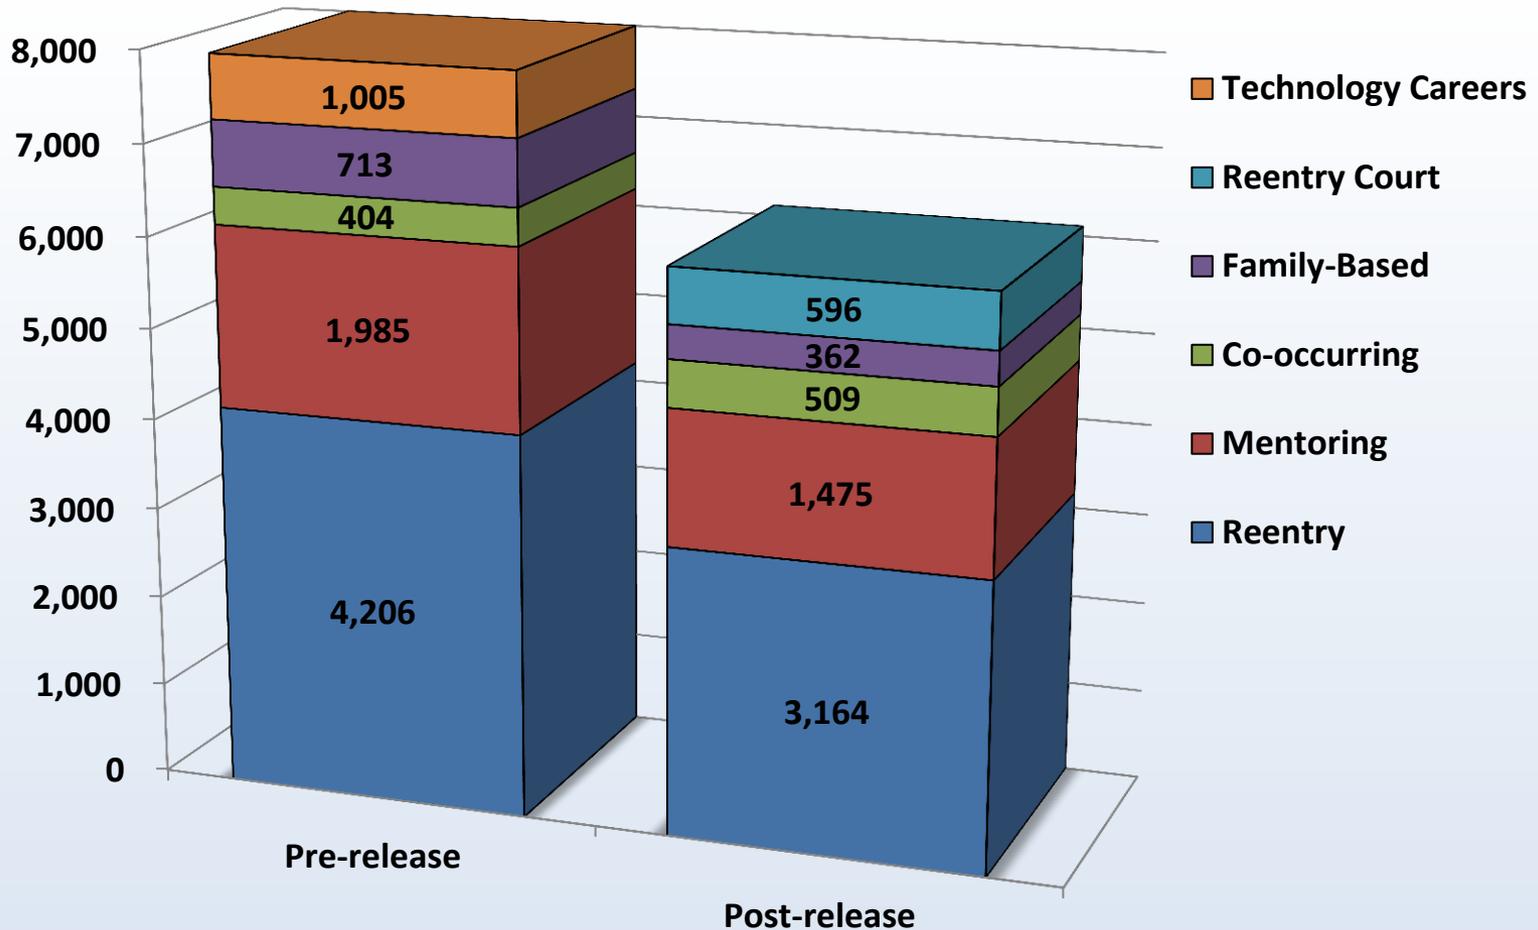

- Link people and dollars to performance
- Link programs and resources to results
- Help to justify continued funding
- Provide targeted technical assistance
- Improve program performance

Second Chance Act Program Accomplishments

- December 2009 through June 2011
 - Reentry and Mentoring Programs admitted 15,911 participants
- In Fiscal Year 2010
 - 4 SCA grant programs received awards and started reporting in July 2011
- Since July 2011
 - All grant programs admitted 8,313 participants to pre-release services and 6,106 to post-release services

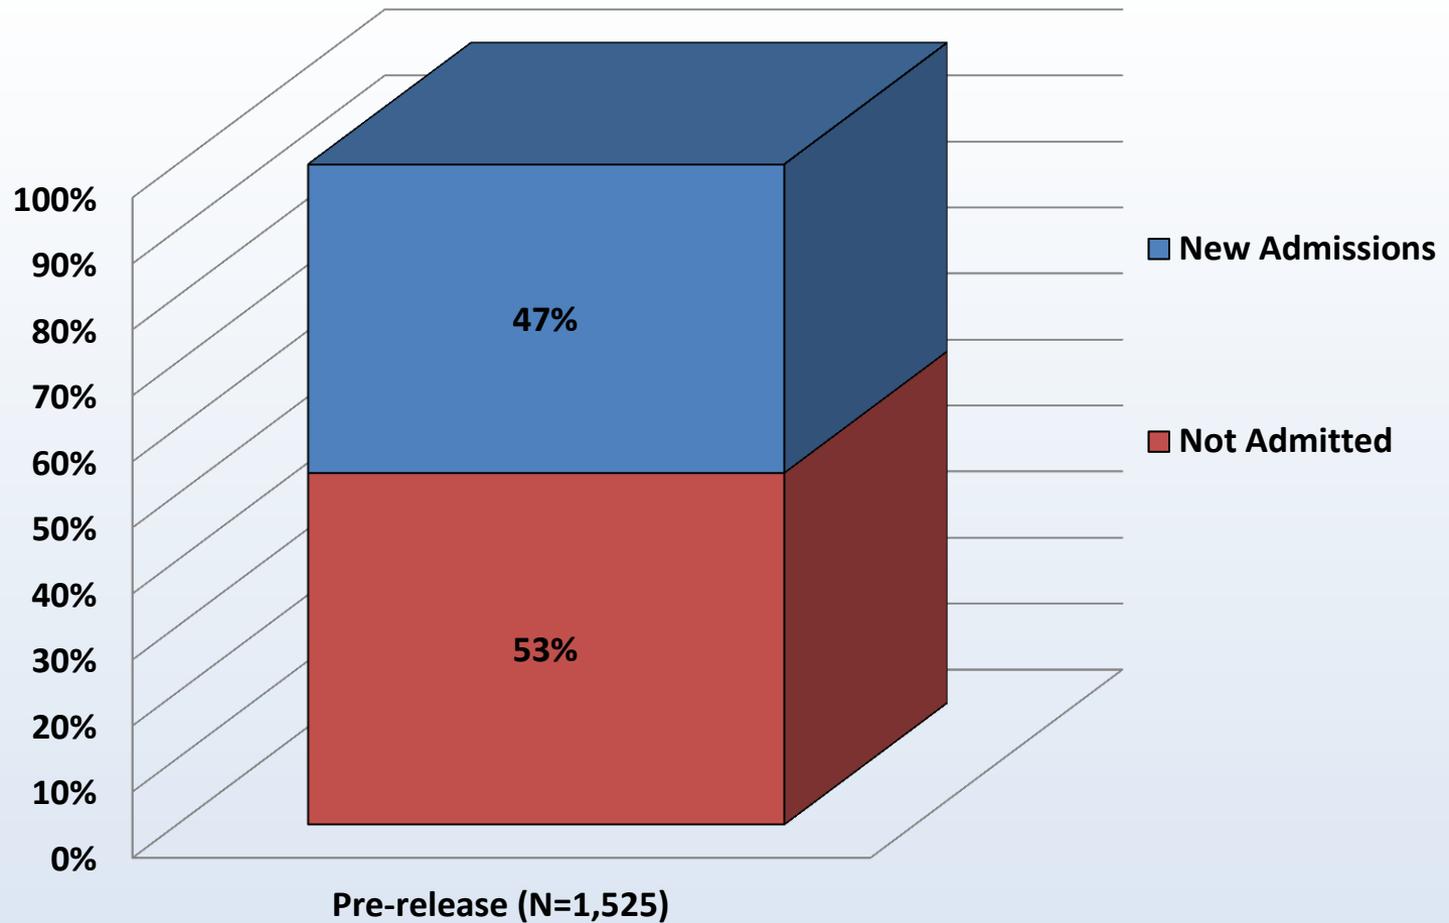

Second Chance Act, Participant Admissions From July to December 2011

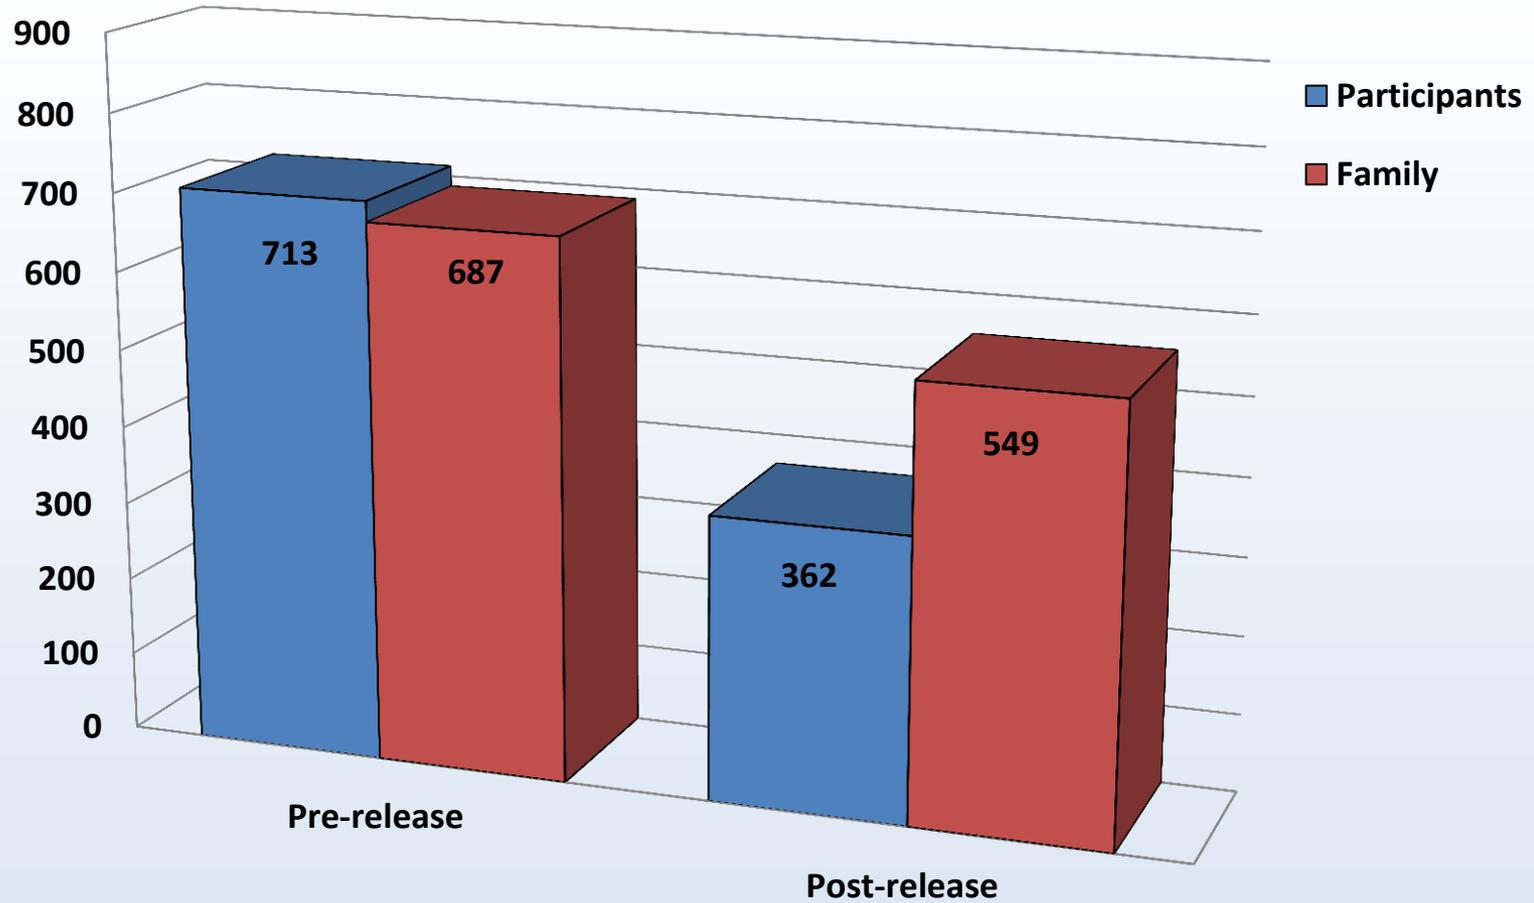

Performance Measurement Data from July to December 2011

- Family-Based Performance Categories
 - Screening
 - Participant/Family Characteristics
 - Demographic Information
 - Risk Assessment Activities
 - Positive Drug and Alcohol Tests at Intake
 - Service Enrollment
 - Successful Completion Rates

Participants Admitted to the Family-Based Program of Those Eligible

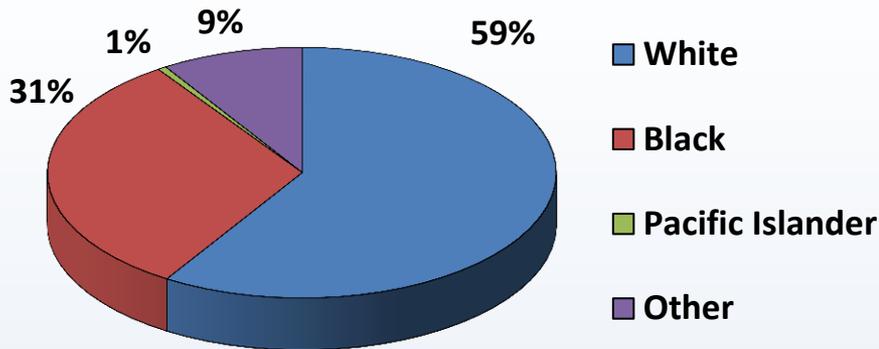

New Admissions, Participants and Family

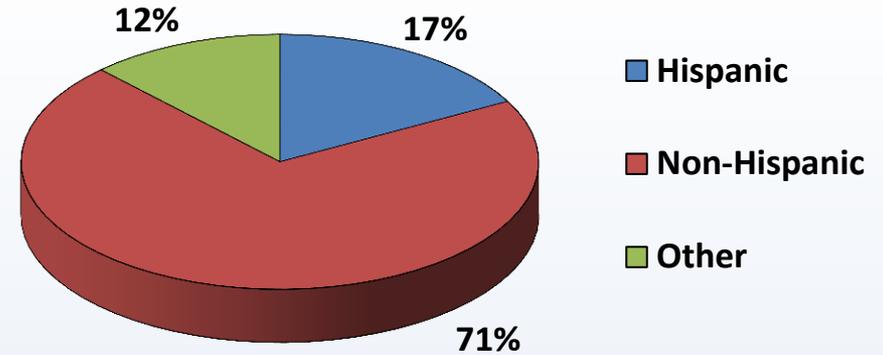

Demographic Characteristics

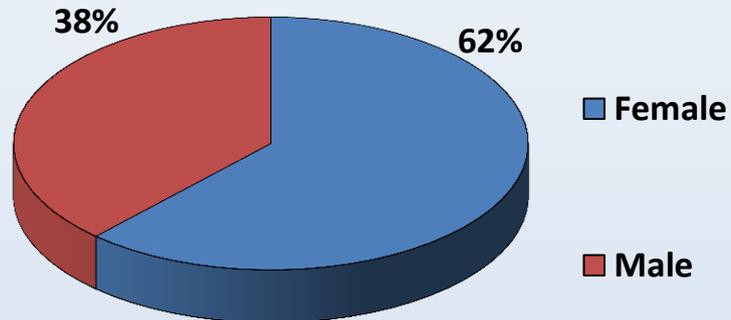

Race

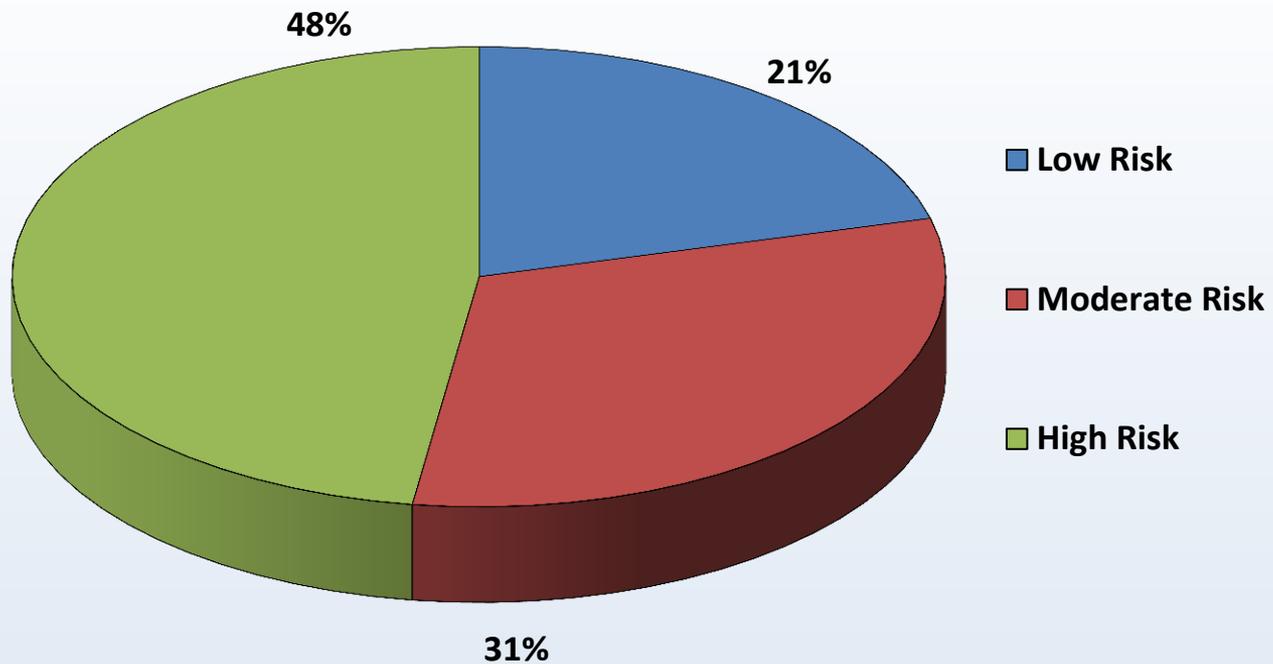

Ethnicity

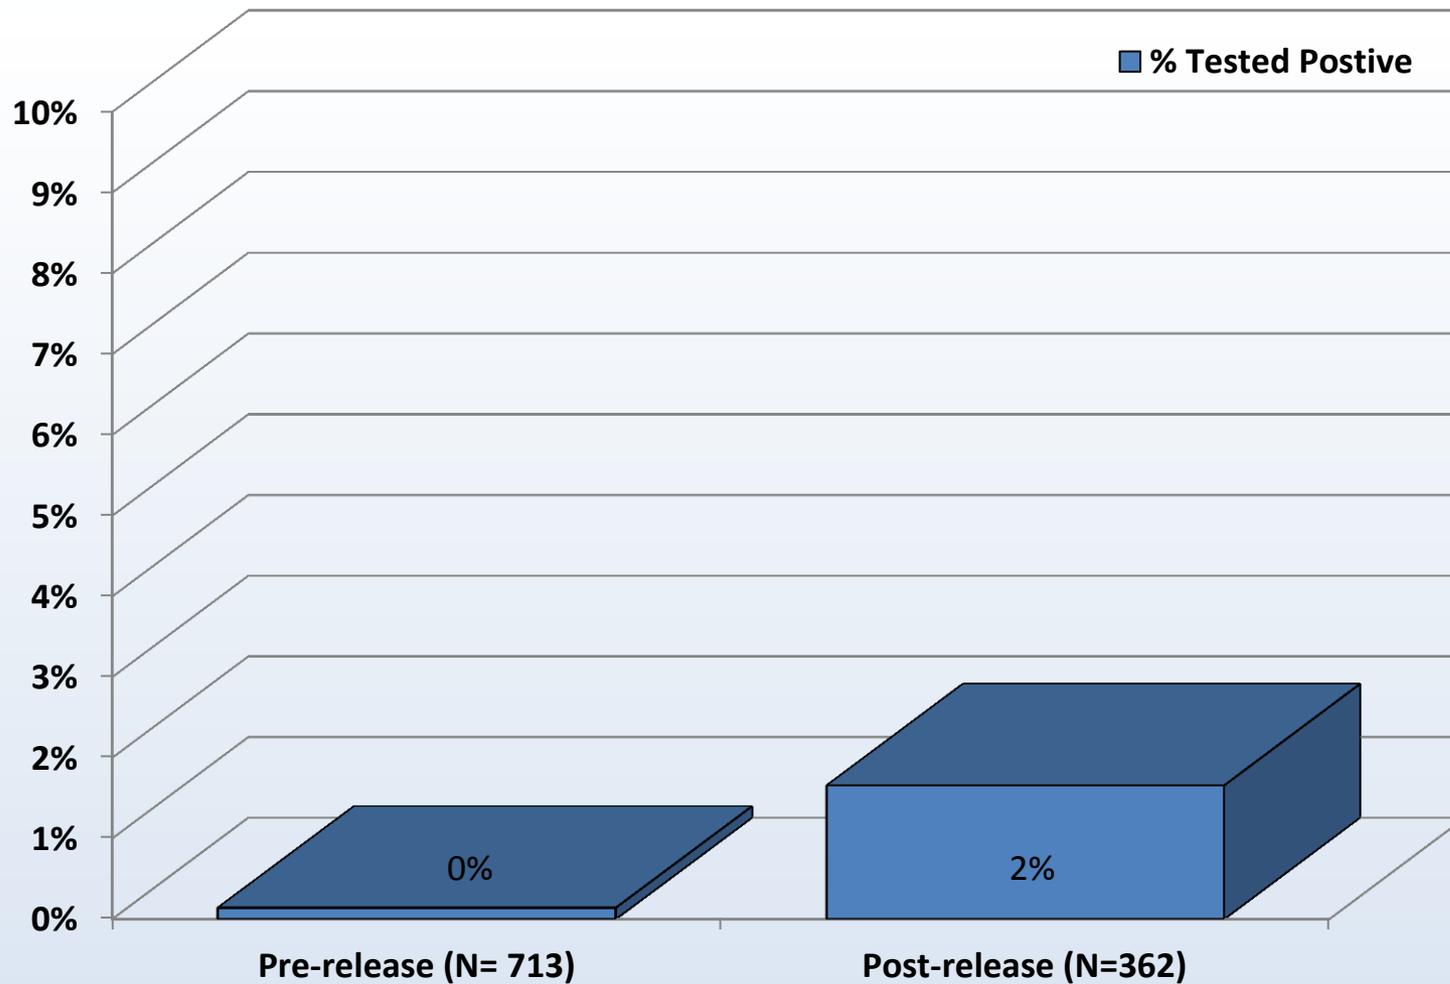

Gender

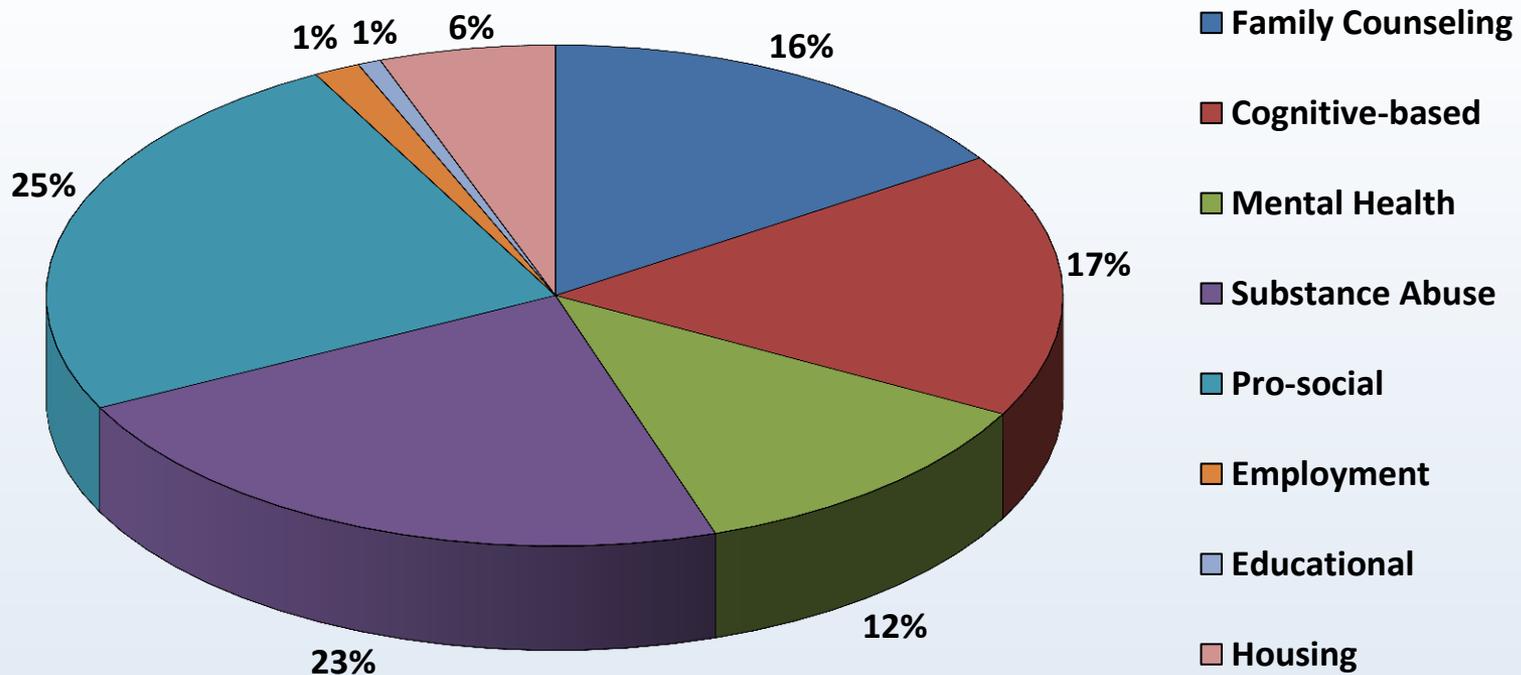

Risk Assessment Characteristics

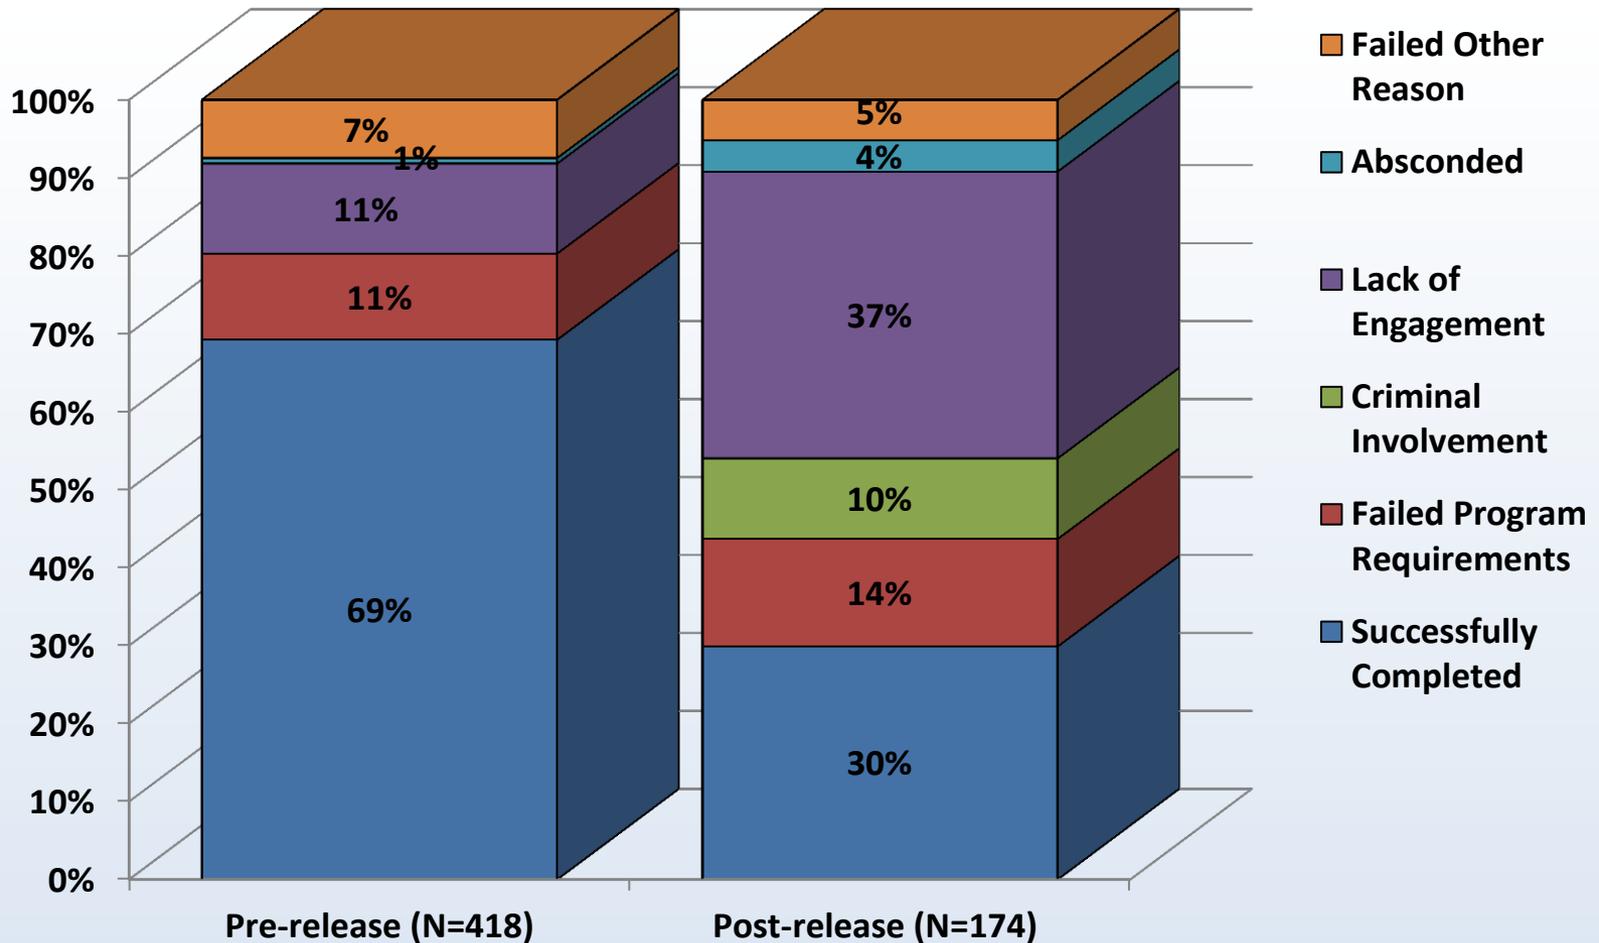

Positive Drug and Alcohol Tests at Intake

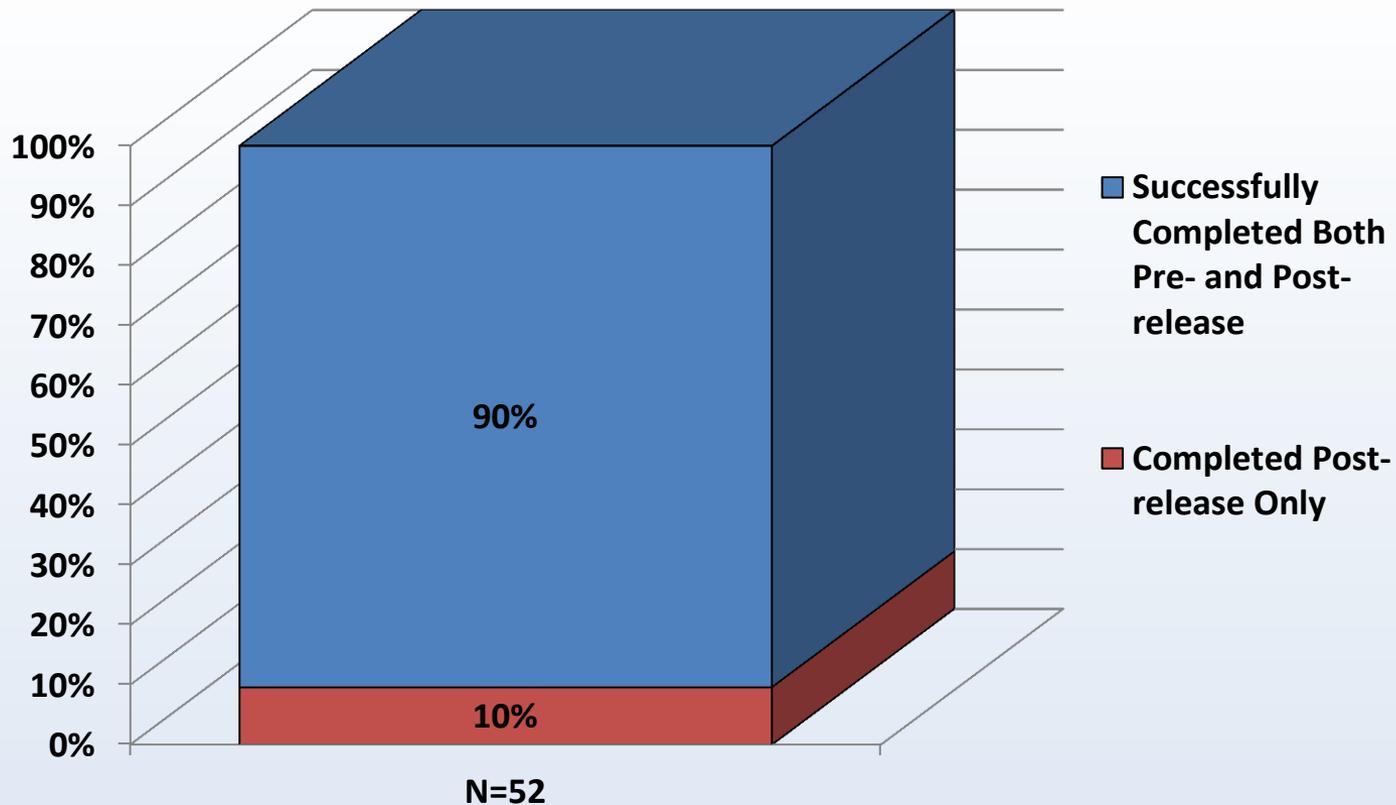

Post-Release Service Enrollment from October to December 2011

Successful Completion Rates

Successful Completion of Both Pre- and Post-Release Services

Common Reporting Issues

- Questions about becoming operational
- Reporting all activities
- Reporting of baseline recidivism data
- New participants versus total participants
- Risk assessment data
- Incompletes—avoid “other” category
- Employment and housing outcomes
- Recidivism data

Tips to Help Improve the Data

- Dedicate staff to coordinate the data
- Ensure appropriate staff participate in PMT trainings
- Add relevant data collectors to additional contacts
- Review definitions of each performance measure
- Review, edit, and validate data
- Be mindful of the validation alerts
- Contact the PMT Help Desk (1-888-252-6867) with questions

Upcoming Revisions

- Better define family counseling services
- Reduce reporting burden
 - Pro-social Services
 - Staff Measures
 - Assessed as Needing Services
 - Some Pre- or Post-release Questions
- Report recidivism measures less frequently
